

Preface

The *CCI Journal on Competition Law and Policy* was conceptualised with the aim of fostering research in the field of competition law and policy. The first two volumes of the journal were well received and were instrumental in generating informed debate on contemporary issues in the field. I hope that this third volume of the journal encourages further discussion on the subject.

Since its inception, CCI has made significant leaps in ensuring fair play in Indian markets, creating a culture of competition in India through competition advocacy, and encouraging scholarship in the field of competition law and policy. This journal is yet another step towards stimulating rigorous interdisciplinary research in the areas of competition law, economics, and finance. I believe that the papers published in this journal will have significant impact and encourage fruitful discussions and seminal research in the area.

Keeping in mind the large number of submissions received for publication in this journal as well as the rapid developments taking place in markets, including new-age markets, it has been decided that the journal will be published biannually from June 2023 onwards. This will also enhance the visibility, stature, and citation impact of the journal.

I would also like to take this opportunity to invite competition law researchers and professionals to contribute to future editions of the journal.

Sangeeta Verma
Acting Chairperson, CCI
